

## 2018 Proposed Zoning Map Amendments

### RS7200 to Mixed Residential (RM)

Multi-family housing is a development that contains three or more dwelling units. Multi-family housing is only permitted in RM and Neighborhood Business zone districts.

There is just one acre of undeveloped and underdevelopment land that is zoned RM.

Ten properties are proposed to be rezoned to RM to accommodate two multi-family housing developments: Habitat for Humanity and Tiny Homes in the Name of Christ (THINC).
